REGIONAL Interim Report No. 4, May 1988

WESTERN REGION (WCPA)

Arizona State University
California Institute of Technology
California Poly. State University-San Luis Obispo
California State Poly University-Pomona
California State University-Fresno
California State University-Long Beach
California State University-Sacramento
University of California-Los Angeles
University of Idaho
University of Nevada-Reno
Oregon State University
University of Oregon
Portland State University
San Diego State University
San Jose State University
Santa Clara University
University of Southern California
University of Southern California-Grad. Sch. of Business
Stanford University
Washington State University
University of Washington

The 186 placement offices at the 153 colleges and universities that participate in the *Salary Survey* are divided into seven geographic regions. The placement offices listed comprise the Western region.

The data are based on salary offers made to students graduating between September 1, 1987 and August 31, 1988. Tables on pages 2 through 5 list data on both regional and national levels for the interim period (April 4 through May 2) and cumulatively (September 1 through May 2). The block tables contain data for the interim period only.

SCOPE AND NATURE OF THE SURVEY

The scope, nature, and coverage of the CPC *Salary Survey* are particularly important to the interpretation and proper use of the statistics.

Offers are reported from employing organizations in business, industry, government, and non-profit and educational organizations. The offers are base starting salary offers and do not include fringe benefits or overtime. The data cover a broad range of functional positions, except teaching. Confidentiality is maintained for the individual, the college, and the employer.

The *Survey* reports offers, not acceptances, with no limit on the number of offers per student. Therefore, offers in the study cannot be equated with actual hires, and when the economic climate changes substantially, the ratio of offers to hires usually changes also, making comparison with other years no longer valid. In those categories where offers are relatively few, the data should be regarded only as an indication.
